

## Personal Timeline

Every student in Frog gets a personal timeline. This is a record of every activity they have been involved in with Frog.

As a parent, you get access to the same timeline, or combined timeline for your children.

For instance, when a teacher sets them homework, it will appear here – as well as in the MyFrog menu.

You can also **see any files uploaded** and any sites shared.

You can **Like or Comment** on any element on the timeline. This can be a useful way to let your children know you've seen their work and provide what education experts call an "authentic audience". In layman's terms, by liking or commenting your children's work, you're letting them know their time and effort was worth it. This can help with children enjoying school more and being happier to learn.

You can switch back to the main dashboard using the Frog head – **dashboard selector** or by tapping 1, 2 or 3 on the keyboard. If you're on a tablet, you can swipe to switch too.
