# Easy Transition

FROM **HORIZON COMMUNITY COLLEGE**

---

## Story

For Year 6 students transitioning to high school, the process can be fraught with worry for students and their parents. Horizon wanted to address that, and Frog found us a solution through **FrogLearn**.

Now each year all yr6 students are introduced to their Frog Student Transition page. Through **FrogLearn** we now have the tools to be able to produce a portal that contains everything a new student will need.

## Impact

Supports a quick integration for new students, providing key information that they will need, as well as reassurance for parents. With the induction information centralised, it frees up the administration team to focus on other tasks.
