

A top-down view of a desk with a laptop, keyboard, mouse, and a small plant. The laptop screen shows a website with a person's profile. The keyboard is white, and the mouse is black. A small green plant is in the top right corner.

Attainment

The attainment widget will display all attainment information associated with a student in a list format.

This widget is used in conjunction with the select user widget and the select date widget.

The select date widget allows users to display any attainment information between a given range. By default, the widget will be set to display the information for the current the month. If the attainment widget displays a notice to say no attainment information is available like in this example, you may need to select a wider date range using the select data widget. I'll increase my range back to May, and this should display some information.
