

FrogParent

FrogParent is an add-on for **FrogLearn** to allow SIMS schools to share and display a child's data in a secure and easy to use manner. Primarily this data is for parents but the staff are also able to access this data where permissions allow.

FrogParent allows staff, parents and students to see information such as attendance data, behaviour data, attainment and SIMS Linked Documents.

Increase Engagement

Our experience has taught us that one of the fundamental pillars of creating engagement is providing the ability to tailor your parents' experience.

FrogParent in combination with **FrogLearn** allows schools to tailor how parents can view information through the use of drag-and-drop widgets.

This functionality empowers schools to create portals that enable parents to:

- ✓ Access their child's attendance, behaviour, attainment and timetables*
- ✓ Easily communicate with their child's teacher*
- ✓ View their child's Markbook of work*
- ✓ See their child's timeline - registration, marks, teachers' comments and examples of work

The ability to view attendance, behaviour and attainment data in an engaging visual format allows parents to interact without having to wait for a report or parents evenings and so can be pro-active. Consequently, parents will be encouraged to take a more active role in their child's learning journey.

⚙️ FULLY CONFIGURABLE

All widgets are configurable. The behaviour widgets for example, allow you to display just positive/negative behaviour and remove descriptions and/or teachers names. The Attainment Table widget works in conjunction with SIMS aspects, which can also be customised.

▲ The data held in **FrogLearn** is not just the current academic year, it will keep all historic data imported. ★ Comes as standard in **FrogLearn**.

FrogParent provides schools with two sets of additional platform functionality.

10 Widgets that allow schools to incorporate attendance, behavior and attainment data into their **Sites** and **Dashboards**.
